Download and install driver

## Step 3

Restart your computer (for Windows only, and not required for Mac) and follow the instructions to set up your Intuos and get your software\*.

# Pripojenie grafického tabletu pomocou technológie Bluetooth

(vyžaduje sa prítomnosť a zapnuté Bluetooth na PC)

## Connect wirelessly by Bluetooth

You can work wirelessly by pairing your tablet to a computer by Bluetooth. Your tablet is battery-powered when you are connected by Bluetooth.

To connect wirelessly by Bluetooth:

1. If your tablet is connected to your computer by USB, disconnect the USB cable.
2. Open your computer's Bluetooth menu and turn Bluetooth **On**.
3. Press the power button on your tablet until the blue LED starts to blink slowly.
  - If your model does not have a power button, press the Touch Ring center button until the blue LED starts to blink slowly.
  - If your tablet was previously connected to a computer which is now off or out of range, the blue LED above the power button will blink quickly.
4. The blue LED slowly blinking indicates the tablet is discoverable by Bluetooth.
5. In your computer's Bluetooth menu, select your tablet's name when it appears.
6. Click **Pair** or complete the pairing process per your operating system's instructions.
7. The blue LED will stop blinking when your tablet is connected.
8. Close the Bluetooth menu.

After you pair your computer to your tablet, you can switch between a Bluetooth and USB connection by plugging and unplugging the USB cable.

## Funkcie LED na grafickom tablete

### What the LED means

Information is conveyed by the status and color of the LED:

LED Color	Meaning
<b>Off</b>	If connected to a wall adapter by USB cable this indicates the battery is fully charged. Otherwise, it means the tablet is off.
<b>White</b>	Connected to computer by USB cable, battery fully charged
<b>Blue</b> (not blinking)	Connected to computer by Bluetooth
<b>Blue</b> (slowly blinking)	In pairing mode, attempting to connect to computer
<b>Blue</b> (quickly blinking)	Attempting to reconnect to last paired computer
<b>Orange</b> (not blinking)	Connected to computer or wall adapter by USB cable, battery charging (> 10%)
<b>Orange</b> (blinking)	Battery is low ( $\leq 10\%$ ) and connected by Bluetooth, attach to a computer or wall adapter by USB cable to charge
